

DIRECTORATE GENERAL OF CIVIL AVIATION INDIA

**SAFETY OVERSIGHT PROGRAMME 2019**  
**(Revision September 2019)**

(ANNUAL SURVEILLANCE AND REGULATORY AUDIT PLAN)

## **FOREWORD**

India is a contracting State to the Convention on International Civil Aviation and a member of the International Civil Aviation Organization (ICAO). DGCA India has an obligation to promote safe, orderly and efficient operation of Civil Aviation activities. To meet State obligations, DGCA has laid down national regulations to ensure compliance with various Standard and Recommended Practices laid down by ICAO in Annexes to the convention.

The Directorate General of Civil Aviation (DGCA) is a regulatory body dealing with safety issues. DGCA is also responsible for regulation of air transport services to/from/within India and for enforcement of Civil Air Regulations, Airworthiness, Operations and Air safety.

DGCA consists of Technical and Administration Directorates. Technical Directorates are; Airworthiness Directorate, Aerodrome Standards Directorate; Air Safety Directorate; Air Transport Directorate; Air Space & Air Traffic Management (CNS and ATM) Directorate, Flight Standard Directorate, Regulations and Information Directorate; Aircraft Engineering Directorate, Flying and Training Directorate, Cabin Crew Safety Division, Medical Cell and Dangerous Goods Division.

Surveillance Enforcement Division (SED) in DGCA Headquarters is the office coordinating and consolidating the “DGCA Safety Oversight System”.

DGCA Headquarters is located in New Delhi with Regional offices in the various parts of India. There are 14 (fourteen) Regional and Sub Regional Airworthiness Offices located at Delhi, Mumbai, Chennai, Kolkata, Bengaluru, Hyderabad, Kochi, Bhopal, Lucknow, Kanpur, Patna, Patiala, Guwahati, and Bhubaneswar. Apart from the Regional Airworthiness Offices, there are 5 (five) Regional Air Safety offices located at Delhi, Mumbai, Chennai, Kolkata and Hyderabad and AED office located at Bengaluru.

DGCA has successfully operationalized the Annual Surveillance Programme (ASP) of 2018 and their subsequent revisions. Revisions in the ASP were needed to take care about the various adjustment necessitated over the year in the initial programme.

The ASP 2019 has been prepared based on the safety oversight plan of various Directorates of DGCA. ASP 2019 is envisaged to take care about the safety oversight obligation of DGCA in the forthcoming year. ASP 2019 shall be also reviewed time to time in order to take care about future adjustment if necessitated during the year.

Revision 1 of ASP 2019:

Revision 1 of ASP 2019 is issued to revise the initial annual surveillance programme of Directorates which have been necessitated due to closure of some of the organisation or their non-functional status at present. Name of these organisations have been deleted from the initial programme by striking through their name. Further supplementary surveillance programme as received from various Directorates have been also included in the current revision.

**The DGCA Safety Oversight Programme 2019 has been divided into 8 areas:**

1. Surveillance Activities (Planned Inspection)
2. Regulatory Audit (Planned Audit)
3. SOFA
4. Spot Check (Unplanned Inspection)
5. Night Surveillance
6. Ramp Checks
7. Surveillance Of Foreign MRO and Maintenance Training Organisation(MTO)-
8. Inspections carried out under the directions of the DG.

**I. Surveillance**

DGCA has developed a system of surveillance to ensure continuing organizational, as well as individual, professional competency of license/rating/certificate/approval holders. The surveillance ensures the capability of an operator to ascertain an acceptable level of Safety in the area of Civil Aviation.

Surveillance provide essential information of the State of compliance of organization and individual participants, identifying any corrective action needed to bring performance up to the required level. Surveillance aims to identify and correct non-compliance behaviours and unsafe practices before they cause any accident or incident. DGCA surveillance activity covers all participants in Civil Aviation System. (“Participants” include all organizations, individuals, products as well as services, procedures and facilities for which an aviation document is required by the Aircraft Rules to operate in the civil aviation system).Surveillance of each area on an approved organisation shall be covered within 24 months.

**Note: During the surveillance of line maintenance at out station, the facility of AFS at that location may also be inspected**

Surveillance Programme for the aviation activities for the operator/organization shall be complied as per the ASP.

On completion of the surveillance, the deficiencies observed by the DGCA officers are listed and discussed in a de-briefing meeting wherein the operator/organization representatives may give their views. After final discussion, deficiencies/non-conformity notices are listed in Deficiency Reporting Form CA-2001 Rev-1, as per procedure manual of directorates which is duly signed by the officer(s) and forwarded to the concerned operator/organization. For every deficiency observed, the operator/organization is required to set the target date for making good the deficiency on Form CA-2001 Rev-1 and submit the same to the DGCA office for acceptance. On receipt of such form, DGCA officers will review the target date before acceptance of the same. Notwithstanding the above, DGCA may take disciplinary action such as suspension, cancellation/restricting the scope of approval wherever serious violations of laid down requirements are noticed and emergent action is required. Any failure on the part of the operator/organization to rectify the deficiency satisfactorily and within the time frame set and as agreed by DGCA, may invite appropriate action as per the Rules.

Director General (CA) has operationalized the Annual Surveillance Programme (ASP) of 2018 and their revisions successfully, carried out number of surveillance inspections and detected number of Level 1 and Level 2 deficiencies. These deficiencies have been addressed successfully by all the stake holders. This has ensured strict compliance of Regulations. This has ultimately led to enhancement in aviation safety.

Director General (CA) has prepared an improved version of Annual Surveillance Programme (ASP) based on experiences gained during 2009 to 2018 and comprises of all Directorates. Further DGCA also analysed the field data/ discrepancies reported during past surveillance activities. DGCA also identified the weak areas of the operators and the areas of concern. The results of the analysis has been incorporated for the development of new ASP 2019. The Programme has been developed after taking into account the available resources in the organization.

A monthly Programme of Surveillance is also prepared, which covers all Schedule/Non Schedule/ Private Operators/ General Aviation Organizations/ State Govt. Aircraft and their operations/ Oil companies and also Safety Assessment of Foreign Airlines. DGCA officers from Regional and Sub regional offices shall carry out night surveillance for Schedule/Non Schedule operators every month as required. Surveillance Inspection of Foreign Airlines shall be jointly carried out by inspectors from Flight Inspection Directorate and Airworthiness Directorate as per the monthly Programme. Surveillance Division will co-ordinate in this matter.

A monthly progress report on ASP will be submitted by all the Regional Offices (including their Sub-Regional Offices) to their respective Directorates in Headquarters by 10<sup>th</sup> of the following month on prescribed proforma. All Directorates at Headquarters shall send report to Nodal Officer of SED by the 15<sup>th</sup> of the following month in the form of Table A, B1, B2, B3, B4, C, E & F the format of these tables are given in Appendix A of SPM.

A monthly review of ASP will be held at a date specified by DGCA, wherein monthly progress, shortfalls against monthly targets will be analysed by DGCA along with analysis of identified deficiencies categorized into level-I & level-II. All level-I deficiencies will be further analysed in the subsequent Board of Aviation Safety (BFAS) meeting which is being conducted time to time in DGCA Hdqrs. These deficiencies will be fed into the ASP Data Pool for resolution, tracking and dissemination of safety related issues.

Director General (CA) appeals to all officials of DGCA and the stake holders to participate in the surveillance programme in a constructive and positive manner so that regulation are strictly complied with there by contributing over all aviation safety. It is expected that by collective endeavour India shall continue to remain well above the International standards.

The newly recruited officers may be associated with all surveillance/audits activities as Observers.

The Surveillance and Enforcement Division in Headquarters has a key role to plan, monitor, oversee and enforce actions on behalf of Directorates/Regional offices. Surveillance & Enforcement Division is maintaining consolidated database of all the surveillance carried out and status of findings closure by Directorates/Regional and Sub Regional offices. Surveillance and Enforcement Division updates this database in continued basis and also monitors the progress of the compliance of ASP including closure of findings. Surveillance and Enforcement Division updates DG (CA) in the surveillance meeting about the pendency status of surveillance activities and subsequently also informs Directorates/Regional offices in this regard.

## II Regulatory Audits

Besides the surveillance, regulatory audits will be carried out during the year with an aim to ascertain the internal control of any organization in its activities and to ensure compliance of regulatory requirements.

## Regulatory Audit Programme (RAP) - 2019

The guidelines for regulatory audit is detailed in the manual of Regulatory Audit published on the DGCA website. Regulatory Audit shall be carried out as per the structured program. Notified Nodal officer from Directorate of Air safety will co-ordinate the Regulatory Audits. Audit reports will be disseminated by the Air Safety to the operator and copied to the Auditors. The auditors will ensure that the ATR submitted by the operators on the findings are closed. The closure of the findings will be submitted to the Nodal officer.

## III. SOFA Inspection

Under Article 16 of the Convention on International Civil Aviation, States are entitled to search aircraft from other States on landing and departure and to inspect the certificates and other documents. Further, paragraph 4.2.2.2 of ICAO Annex 6 (Operation of Aircraft, Part-I International Commercial Air Transport—Aeroplanes) also requires that states shall establish a programme with procedures for the surveillance of operations in their territory by a foreign operator and for taking appropriate action when necessary to preserve safety. The foreign Airlines planned for SOFA inspection as per the AIC No.5/2009 dated 3<sup>rd</sup> June 2008 in the year 2018.

The SOFA inspections will be carried out jointly by the Airworthiness Directorate officers and FSD representatives. The schedule of inspection at various locations is given in the respective section of ASP.

#### IV. Spot checks / unplanned inspection

Apart from these scheduled surveillance checks and Regulatory Audits, it is also decided to carry out the spot checks. Spot checks are unplanned checks and will be carried out to verify the affectivity of internal audit system of any organization and ensuring the continued compliance of previous DGCA audit / surveillance findings.

The spot checks shall not form the part of ASP, however the details and discrepancy reported during this course will be reviewed in monthly surveillance meetings.

Head of the DGCA regional office shall convene meeting at least once in three months or when desirable with the Accountable Manager of respective organization if there are any discrepancies observed during spot checks and to review its affectivity.

#### V. Night Surveillance Checks/Quality Assessment Checks/ Cross Regional Checks-

The purpose of Night Surveillance is to ensure that operators do not follow shortcut on any procedures, deployment of necessary manpower, release of aircraft without proper defect rectification, extend MELs due to absence of managerial supervision at night or any other reason .A standard checklist as per Surveillance Procedure Manual (Appendix 'G') for the night surveillance may be used as a guideline by various Directorates while carrying out the night surveillance.

The Cross Regional Checks are intended to ensure uniformity and standardization of surveillance procedures followed by various Directorates / Regions. Further, such checks will also enhance streamlining of surveillance procedures adopted in various Directorates / Regions.

In order to ensure that surveillance inspections are carried out as per ASP and proper procedures are followed for classification of findings as Level I or Level II, surveillance records are maintained properly and closure actions on Deficiency Reporting Form are taken after due compliance on all actions required, it is necessary that Quality Assessment of surveillance activity of various Directorates are carried out by DGCA nominated inspectors. The officers assigned with Quality Assessment must use the check list as per Surveillance Procedure Manual (Appendix 'E') for conducting the assessment.

#### VI. Ramp Inspection-

Ramp Inspections are planned product inspections carried out to inspect aircraft at ramp during schedule operation to verify the compliance of laid down regulation during operation of schedule airlines This inspection may be carried out jointly with FSD and Directorate of Airworthiness representatives The ramp inspections may be carried out at Base /Transit stations.

### VII. Surveillance of Foreign MRO and Maintenance Training Organisation (MTO)-

These are planned inspection of an approved foreign MRO and maintenance Training organisations , carried out at regular intervals of 3years by the Airworthiness representatives, to ensure adherence to the laid down requirements by approved foreign organizations for continuation of approval of DGCA.

### VIII. Special Inspection Drive

Director General when found necessary may direct to carry out any other surveillance/inspections or audits.

## DETAILS OF SURVEILLANCE PLAN-2019

S.NO	NAME OF DIRECTORATE	TOTAL NO. OF SURVEILLANCE
